

## **OPBM REPORT – Laali Vadlamani, President, Hilary Term 2018**

As President, I have been responsible for overseeing the work of both the elected and appointed committees. Over the vacation, I worked with the Treasurer and Librarian to oversee organisation of the 7 debates, and over 25 speaker and panel events. In particular, effort was made to ensure diversity in terms of speakers, which I believe is an important factor in helping the Union retain its high profile internationally for decades to come. I also assigned each of the standing committee to put together a social event, or panel event of their choice. In some cases, the Librarian, Treasurer, and I, came up with the initial idea for ourselves (as we began planning the term over the summer and throughout Michaelmas), and asked the member of Standing Committee to implement them. Speakers I personally confirmed include Bryan Cranston, Alec Baldwin, Hector Bellerin and Louise Richardson.

During term, I have hosted the majority of events, working alongside the CCC, who has managed the day-to-day logistics of events, to ensure that events have run smoothly. Alongside the President-Elect, I have worked to maintain the Facebook page, and information that we send out to members through all channels of communication.

Following the passing of vacation reports, I am required to inform you of vacation day totals of committee members. You may wish to use this as a guide to the work carried out by committee members on your behalf, but should also consider the term card and specific events committee members are responsible for in making this judgement.
